

Revised 9/27/12

The board has now collected a great deal of information and input from community members regarding the future of the school facility, and the major question on which we've been soliciting your input--whether to renovate-as-new or undertake new construction elsewhere. On Thursday, October 4th (6:30 in the HPES Library), we will hold an important special meeting. We will again hear input from any interested community members. We will then carefully and systematically review the evidence we have collected over the past several months. Finally, we will vote on which plan to pursue. If you haven't yet made your opinion known to us, please consider attending this meeting. If you prefer, you may also contact any of us before the meeting. As we move forward, we will continue to keep you well-informed, and we hope you will continue to be involved in the process.
